

Kenya Cabinet Dissolved:

Next Natural Step is for Ruto to be Forced Out of Power by the Leaderless, Tribeless & Partyless Patriots/Gen Z Movement

So Mr William Ruto wants to form a 'Government of National Unity' (GNU)?

This would just buy him a few extra weeks in power, thus wasting Kenyans' time for no good reason.

1. No opposition leader can sincerely claim he/she supports GNU due to patriotic reasons.

(i) When Ruto's regime was almost overthrown by the people last year, the opposition parties – who led the demos – started 'dialogue' with the government.

That 'dialogue' has been going on for many months, yet corruption, wastage and incompetence among senior govt officials has continued unabated.

In fact, this is the main reason that Kenyan patriots/Gen Z – who are Leaderless, Tribeless & Partyless – took it upon themselves to push for a Citizens' Revolution.

(ii) When the opposition went into 'dialogue' with the govt, it was generally understood by many people that, they were under extreme pressure from 'foreign friends of Kenya', to stop the demos.

Opposition parties did not call for current (June-July 2024) protests.

Therefore, they can inform any foreigner pushing them to join GNU with Ruto, that they have nothing to do with the protests (which is a fact).

Indeed, joining GNU would be an act of sabotage against the Kenyan patriots/Gen Z, who are doing what the opposition parties should have done, when Ruto's regime turned rogue, and started buying opposition MPs.

(iii) In the ruling KK coalition, there are 2 MPs who have committed murder in broad daylight, in recent months.

They continue to sit in parliament, and to hobnob with Ruto, as if nothing happened.

These are the type of characters Ruto feels comfortable having as close allies.

Any opposition politician joining Ruto's GNU knows about his crooked ways, and his close association with criminal entities.

Months ago, theoretically, a patriotic Kenyan could argue that he/she was accepting appointment to Ruto's regime, 'because he is there to stay...'

That cannot be an excuse now.

Ruto is currently on the ropes, and anyone accepting any appointment in his regime, must be doing so for personal, unpatriotic reasons.

(iv) If some senior opposition leaders agree to 'work with Ruto', he will use that opportunity to replace the sacked Cabinet Secretaries with new, even more dangerous crooks.

Ruto knows he has completely lost public support.

Therefore, he will want to have in his proposed GNU, politicians who are known to have 'good networks among the criminal under-world' - So they can help Ruto's regime 'control the streets' of major cities.

Some of these politicians are former county governors, who would be very happy to join GNU, and in return, they wouldn't be pursued for theft of public funds while they were governors.

They would hire armed goons to attack peaceful Kenyan patriots/Gen Z, and also loot businesses, which would be blamed on Kenyan patriots/Gen Z.

The agenda would be to turn business-people against the peaceful protesters.

i.e. Ruto's regime would be hoping to buy time, via introducing anarchy in Nairobi and other big cities/towns.

(v) It is betrayal of hundreds of Kenyans who have been murdered by security agents in the past 1 month, as Ruto uses terror to quell peaceful demos against his regime's corruption, mismanagement and incompetence.

Nobody knows exact number of law-abiding civilians who have been killed by state agents, since protests against Finance Bill 2024 started last month – bodies of young men and women are still being recovered daily in dams, rivers and quarries, in and around Nairobi.

When the final tally of the number of innocent Kenyans killed by Secretive Police Murder Squad countrywide in the past month is finally revealed, it might unfortunately be in the thousands.

Many families across the country are reporting their kin – most in their 20s & 30s – missing since mid last month...

Any politician volunteering to 'work with Ruto', is condoning these extra-judicial killing of innocent Kenyans by rogue police units.

This man lying dead outside the Kenyan Parliament is David Chege. He was shot in the head.

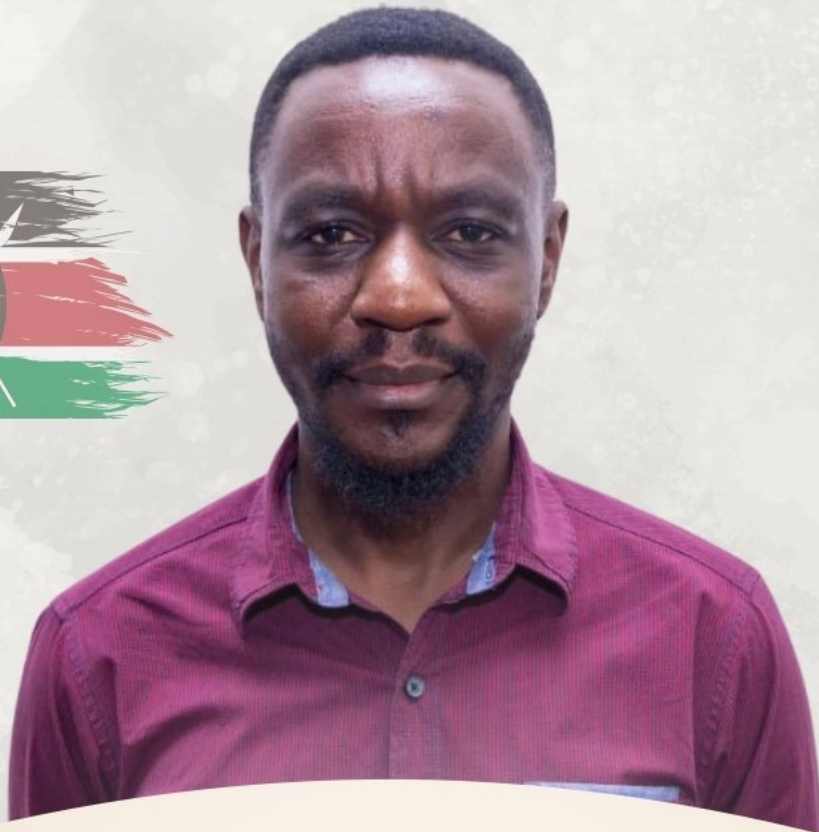

He was a Sunday school teacher. He is being buried today but nobody has been held accountable for killing him. No regret, no suspension, no probe, no nothing

Joseph Mwangi has been missing since Tuesday, 18th June after being abducted in Mwiki. His family has searched morgues, hospitals, and police stations without success. Why is the government unable to stop the abduction of our youth? [#SemaUkweli](#)

2. All prominent opposition leaders have a lot of political experience, going back many years.

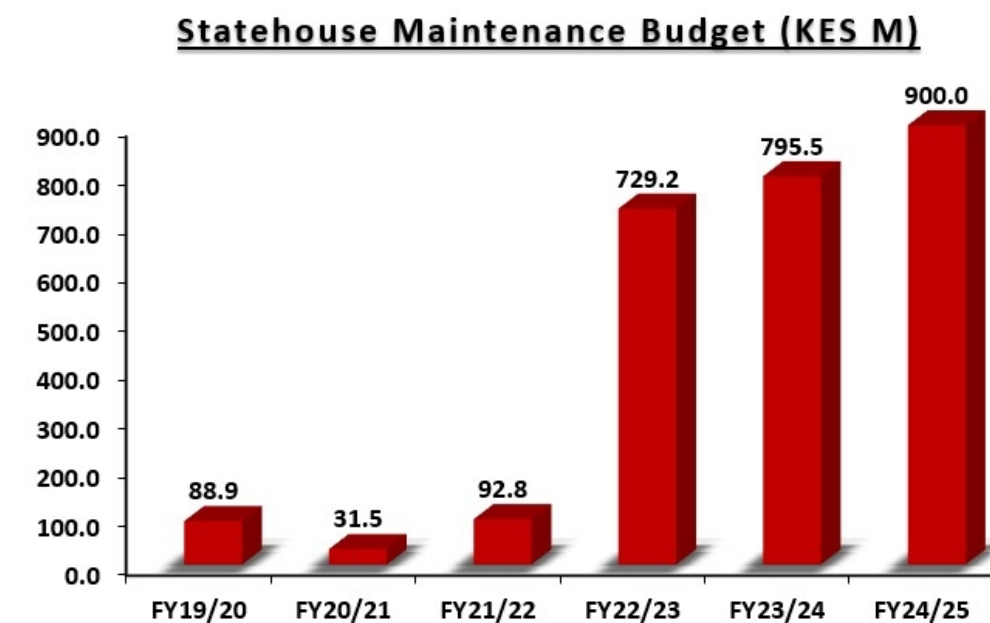

All of them know these 3 facts:

(i) Since independence in 1963, there has never been a cabinet as incompetent as the one crafted by Mr Ruto in 2022.

(ii) Since independence in 1963, there has never been a head of state so unpopular nationally, at any point in their rule, as Ruto is currently.

(iii) Since return of multi-partyism in 1992, no head of state has ever had such absolute control of parliament, as Ruto does currently.

Looking at these 3 points, isn't it clear that there is something very wrong...That cannot be solved by any 'Dialogue'/GNU?

CONCLUSION

Kenya needs a complete overhaul – a peoples' revolution that will usher in a nation where crooks end up in jail; and good education and excellent health services are available to all.

The Leaderless, Tribeless & Partyless Movement is geared towards achieving that.

And the Movement is open to all patriots, of all ages.

You see, because it has no leader, and nor leadership structure, no one can tell you, 'you don't belong in this movement...'

Because no one has such authority.

All you need, in order to participate in Kenya's final liberation, is to be a Kenyan patriot.

No true patriot can sabotage this Movement, directly or indirectly.
